Highfill Auto Sales
Attn: Mr. Bill Highfill
1327 E. Kearney
Springfield, Missouri

Dear Mr. Highfill:

This letter is to confirm our conversation on Friday May 7, 1976 at which time we discussed the disposing of oil on your property. It was pointed out to you that the dumping of waste oil on your property, where it can leave your property by natural drainage, or can be carried off by storm water, is an apparent violation of City, State, and Federal Law. We also discussed the possibility of you obtaining a 55 gallon drum to put your waste oil into and then having it periodically pumped out. It was also pointed out that this would probably be the best solution to your problem. This method seemed favorable to you.

If you have any further questions, or need any other assistance please feel free to call.

Yours truly,

Eugene D. Pabst
Water Pollution Control Inspector III
Surveillance & Enforcement
